

Turning Postsecondary Data into Equitable Student Success.

Transform National Student Clearinghouse data into actionable dashboards. Hosted securely by WSIPC for Washington school districts.

One Hub. Five Perspectives.

FOYOST transforms National Student Clearinghouse StudentTracker data with your local student context into clear, interactive dashboards that help districts understand where graduates enroll, persist, and complete—and where equity gaps remain.

Student Success

Track enrollment, persistence, and completion over time

Student Journey

Visual, student-level pathways for advising and coaching

Program Impact

Measure the effectiveness of local initiatives

Outreach Insights

Identify and support students at risk of stopping out

College Selection

Guide advising with real postsecondary outcomes

Driving Equitable Outcomes

- Identify equity gaps by race, gender, and income
- Track progress across graduating cohorts
- Analyze program impact (CTE, AVID, Dual Credit, FAFSA, etc.)
- Prioritize outreach for summer melt and stop-outs
- Support strategic advising with real college performance data

Data Security & Researcher Access

FOYOST is hosted by WSIPC in a secure Microsoft Azure environment with enterprise-grade privacy and role-based permissions.

- FERPA-compliant, role-based security
- Governed access to sensitive demographic and outcome data
- Researcher export: Securely download student-level data to Excel for advanced external statistical analysis
